Background. Design methods originated in new approaches to problem solving developed in the mid-20th Century, and also in response to industrialisation and mass-production, which changed the nature of designing. A 'Conference on Systematic and Intuitive Methods in Engineering, Industrial Design, Architecture and Communications', held in London in 1962 is regarded as a key event marking the ...

Our commitment to efficacy. In 2013, Pearson made a commitment to efficacy: to identify the outcomes that matter most to students and educators, and apply evidence-based approaches to product design and development so we could have a greater impact on improving those outcomes.

Efficacy & Research at Pearson

Design research was originally constituted as primarily research into the process of design, developing from work in design methods, but the concept has been expanded to include research embedded within the process of design, including work concerned with the context of designing and research-based design practice. The concept retains a sense of generality, aimed at understanding and improving ...
