Institute for Clinical Research Education (ICRE)

The Council for International Organizations of Medical Sciences (CIOMS) is an international nongovernmental organization established jointly by WHO and UNESCO in 1949. CIOMS represents a substantial proportion of the biomedical scientific community through its member organizations. The mission of CIOMS is to advance public health through guidance on health research including ethics, medical ...

Council for International Organizations of Medical Sciences

Pharmacology is the branch of biology concerned with the study of drug action, where a drug can be broadly defined as any man-made, natural, or endogenous (from within the body) molecule which exerts a biochemical or physiological effect on the cell, tissue, organ, or organism (sometimes the word pharmacon is used as a term to encompass these endogenous and exogenous bioactive species).
