6 methods of data collection.pdf | Qualitative Research

Educational psychology is the branch of psychology concerned with the scientific study of human learning. The study of learning processes, from both cognitive and behavioral perspectives, allows researchers to understand individual differences in intelligence, cognitive development, affect, motivation, self-regulation, and self-concept, as well as their role in learning.

Mixing Interview and Questionnaire Methods: Practical

The case study as a type of qualitative research 29 Introduction Case studies were one of the first types of research to be used in the field of qualitative methodology.

The case study as a type of qualitative research

Psychology is the science of behavior and mind, including conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope and diverse interests that, when taken together, seek an understanding of the emergent properties of brains, and all the variety of epiphenomena they manifest. As a social science it aims to understand individuals and groups ...
