## **Using & Understanding Mathematics: A Quantitative**

Understanding is a psychological process related to an abstract or physical object, such as a person, situation, or message whereby one is able to think about it and use concepts to deal adequately with that object. Understanding is a relation between the knower and an object of understanding. Understanding implies abilities and dispositions with respect to an object of knowledge that are ...

Feature Visualization by Optimization. Neural networks are, generally speaking, differentiable with respect to their inputs. If we want to find out what kind of input would cause a certain behavior " whether that's an internal neuron firing or the final output behavior " we can use derivatives to iteratively tweak the input towards that goal .
