A dome (from Latin: domus) is an architectural element that resembles the hollow upper half of a sphere. The precise definition has been a matter of controversy. There are also a wide variety of forms and specialized terms to describe them. A dome can rest upon a rotunda or drum, and can be supported by columns or piers that transition to the dome through squinches or pendentives.

Dome - Wikipedia

The Construction Work shall be performed in such a manner that there will be at all times during construction a minimum of air pollution, water pollution or any other type of pollution and a minimum of noise emanating from, arising out of or resulting from such construction.
